

How to use this asset

This frame pack contains 75 film and artistic frame textures.

You can use these textures as part of your UI (they are just textures) or with Beautify Frame option for superior performance.

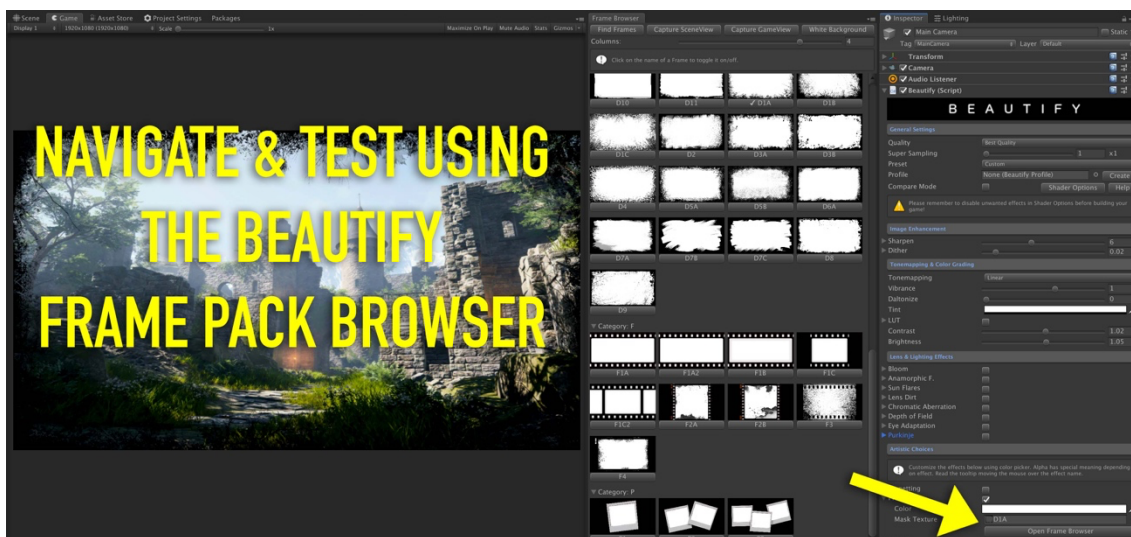

Learn more about Beautify on the Asset Store:

<https://assetstore.unity.com/packages/vfx/shaders/fullscreen-camera-effects/beautify-2-163949?aid=1101IGsd>

Beautify includes a Frame Pack browser which makes navigation and testing the frames very easy.

In Beautify for built-in pipeline, you can click the “Open Frame Browser” button below the Frame section.

You can also access the Frame Browser from Beautify for URP using top menu Window -> Frame Browser.

How to contact us

Future updates

All our assets follow an incremental development process by which a few beta releases are published on our support forum (kronnect.com). We encourage you to signup and engage our forum. The forum is the primary support and feature discussions medium.

Of course, all updates of this asset will be eventually available on the Asset Store.
